Tegoroczna edycja Międzynarodowego Projektu Mail Art 2022 została zorganizowana po raz drugi przez Muzeum Piśmiennictwa i Drukarstwa w Grębocinie we współpracy z Fundacją Świątynia Sztuki. Tematem przewodnim było hasło POKÓJ/PEACE. Projekt, podobnie jak w pierwszej edycji, adresowany był do artystów profesjonalnych jak i studentów Uczelni Artystycznych. Na wystawę wpłynęły karty pocztowe 110 artystów z 24 krajów świata.

Tematem przewodnim projektu było hasło, które w tym roku jest niezwykle aktualne, a odnosiło się do sytuacji geopolitycznej w Europie. PEACE został tu odmieniony przez wszystkie przypadki, od typowej symboliki związanej z tym hasłem do zupełnie abstrakcyjnych form.

Akceptowane były wszystkie techniki tradycyjne i cyfrowe w szczególności graficzne, rysunkowe, malarskie czy fotograficzne. Pojawiły się prace kolażowe i kaligrafowane oraz prace na ręcznie czerpanym papierze.

Projekt International PEACE Mail Art zakładał również udział tradycyjnej poczty jako medium sztuki i narzędzia artystycznego z jej nieodzowną specyfiką tj. koperty, stemple, znaczki.

This year's edition of the International Mail Art 2022 Project was organized for the second time by the Museum of Literature and Printing in Grębocin in cooperation with the Temple of Art Foundation.

The main subject was: POKÓJ / PEACE. As in the first edition, the project was addressed to professional artists and students of art schools. The artworks made by 110 artists from 24 countries around the world were submitted to the exhibition.

The leading theme of the second edition is extremely timely with regard to the geopolitical situation in Europe. When interpreting the word PEACE, the artists referred both to the typical symbols associated with this slogan and to completely abstract forms.

All traditional and digital techniques were accepted, in particular graphic, drawing, painting and photography. There are collages, calligraphic works and postcards basing on hand-made paper.

The International PEACE Mail Art project also the use of the traditional mailing system as a medium of art and an artistic tool with its indispensable specificity including envelopes, stamps and postmarks.
